DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims **1-4** are rejected under 35 U.S.C. 102(b) as being anticipated by GB 2273593.

GB '593 discloses a monitoring system for landfill sites that comprises a central console unit, a central single gas fixed gas monitor fitted with a master radio transmitter unit adapted for communication with a plurality of mobile slave radio-page (portable, wearable) unites, (abstract; page 2, paragraph 4; page 3; page 4 paragraph 1 and 2; page 5 paragraph 2 and 4; page 6 paragraph 1; page 7). The central monitoring unit automatically transmits an alarm to the slave units when a hazard is detected (page 3 paragraph 1).
